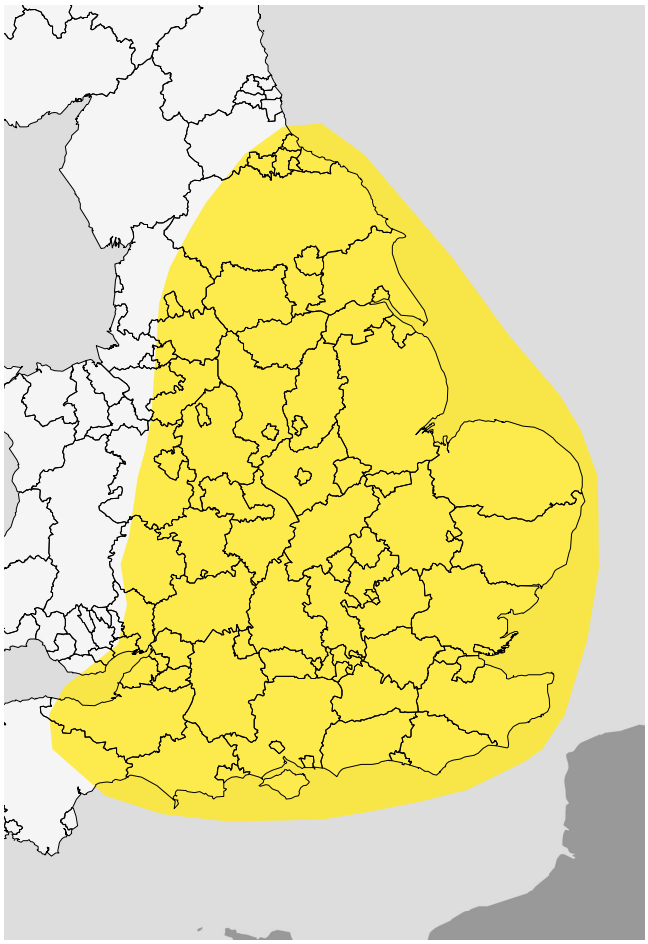
Yellow warning
Rain

Between
00:00 Mon 23 Sep 2024 and
23:59 Mon 23 Sep 2024



Areas of heavy rain may result in some disruption on Monday.

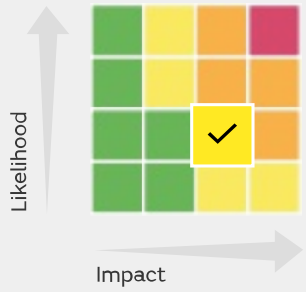
What to expect

- Homes and businesses could be flooded, causing damage to some buildings
- Delays or cancellations to train and bus services are possible
- Spray and flooding could lead to difficult driving conditions and some road closures
- Some communities may be cut off by flooded roads
- Possible power cuts and loss of other services to some homes and businesses

Further details

Areas of heavy rain are expected to affect many parts of England and southeast Wales during Monday. There is still some uncertainty regarding which areas will be affected by the heaviest rain, but at this stage parts of the south Midlands, southern and southwest England look most likely to see the greatest accumulations - see separate amber warning. However, anywhere within the warning area could have impactful rainfall through the course of Monday.

There is potential that 30-50 mm could develop in any part of the warning area, much of which could fall in six hours or less.



Low likelihood of medium impacts

Yellow warning
Rain

Between
00:00 Mon 23 Sep 2024 and
23:59 Mon 23 Sep 2024

Further Details (continued)

Some locations could see 80-100 mm over the course of 12 to 24 hours.

What should I do?

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Update to remove parts of Wales and northwest England from the warning.
